Aleksandr **Talipov**

DATA ANALYST

☎ (+90) 54-1355-5732 | ✉ aleksandr.talipov.work@gmail.com | ⬡ abtcrazy | Ⓢ live:.cid.fe3bb87069464e8f

Skills

Databases	SQL (MySQL, PostgreSQL, MS SQL)
BI	Grafana, Tableau, Power BI, DataLens
Programming	Python (pandas, NumPy, Matplotlib, Seaborn, Plotly, Jupyter Notebook)
Data engineering	Pentaho DI
Other	Git
Languages	Russian, English

Work Experience

Gorserv   *Moscow, Russia*

BI ANALYST   *Jul. 2022 - Present*

- Supported, developed and optimized current operational dashboards using Grafana and SQL for automation, reducing routine operations by 2 times, which increased user efficiency.
- Supported and developed the existing historical reporting of Power BI.
- Created models and scripts for updating SQL views to optimize the work of subsystems of the company's platform, which had a positive effect on the stability and speed of its work.
- Collected business requirements and developed new reporting models.
- Conducted user training on working with dashboards.

Perm State Medical University   *Perm, Russia*

ENGINEER & TEACHER   *Oct. 2015 - Jul. 2022*

- Conducted lectures and practical classes for students in Russian and English. Also conducted briefings to improve the computer literacy of university staff.
- Organized the document flow of the department. In particular, designed and organized a data warehouse where information about students' attendance at online classes was automatically uploaded.
- Initiated the introduction of new software for working with data.

Education

PNRPU (Perm National Research Polytechnic University)   *Perm, Russia*

M.S. IN COMPUTER SCIENCE AND ENGINEERING   *Sep. 2016 - Jul. 2018*

PNRPU (Perm National Research Polytechnic University)   *Perm, Russia*

B.S. IN COMPUTER SCIENCE AND ENGINEERING   *Sep. 2012 - Jul. 2016*

Courses

Data visualization with DataLens

DATAYOGA   *2022*

- • Data storytelling • Data Visualization

Interactive SQL Simulator

STEPIK   *2021*

- • Fundamentals of SQL • CTE • Windows functions • Views

Data analyst

YANDEX PRACTICUM   *2021*

- • Fundamentals of Python • Data analysis • Reporting & Analysis

Data visualization with Tableau (Basic)

DATAYOGA   *2021*

- • Data Visualization • Dashboard Building
